

# Aksel Glyholt

[me@akselglyholt.com](mailto:me@akselglyholt.com) | [akselglyholt.com](https://akselglyholt.com) | +4523819339

## Experience

---

### Frontend Developer Internship | [Certificate](#)

Jul 2023 – Current

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

### Freelance Frontend Developer

Jan 2023 - Current

Self Employed

- Delivered 2 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

### Frontend Developer Support

Dec 2022 - Current

Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

## Projects

---

### Personal Website - [akselglyholt.com](https://akselglyholt.com)

- My personal website highlights my programming skills and also contains the source code and website links for all my projects listed below.

### Netflix Clone | [Website](#) | [GitHub](#)

- Fetched data from TMDB API to allow users to view trailers and additional information about movies/TV shows.
- Created a fully responsive movie app using **NextJS, TypeScript, HTML, CSS, TailwinCSS** best practices.

### Library | [Website](#) | [GitHub](#)

- Fetched data from a mock API to allow users to view books and additional information about them.
- Shopping cart system.
- Created a fully responsive library app using **ReactJS, JavaScript, HTML, CSS** best practices.

## Education

---
